Specifications:

- ✓ Dimensions: 2.01m H x 1.49m W x 1.38m D
- ✓ Cycle Time: 41 Seconds
- ✓ Compaction Force: 1.5T
- ✓ Fill opening: 0.53m H x 1.02m W
- ✓ Power: Single Phase
- ✓ Noise Level: 63dB
- ✓ EN16500 Compliant
- ✓ IP65 Standards
- ✓ Automatic Full Indicator
- ✓ Base Lifts to protect bin and bin wheels.

Maximise Existing Space, Reduce Bins
3:1 Compaction ratio = less bins needed.
Set waste weight every time in bin.

Secure your waste area: Closed Lids.
Keep rodents and 'Bin Chickens' out.
Keep bin area clean.

Health inspections made easy:
No overflowing bins
Use Bin Maximisers closed lid system.

Safer for staff: Using 1100L Bins
No more heavy bin lid accidents.
Normal 10 Amp power socket.

Less Trucks in your driveway.
Save staff labour moving bins.
Less bins = less bin costs.
No half-empty bins collected.

Save on Labour:
Less time managing waste collections.
Less bins to handle – save time.
Easy to clean with hose.

Step 1

Insert Bin into Bin Maximiser.

Step 2

Close doors and fill bin to the top

Step 3

Easy single button operation compacts waste.

Repeat Steps 2-3

Once compacted continue filling bin.

Smart Bin Maximiser

A unique innovation. A game changer in your industry.

RESTRICTED FOR SPACE?

Get the most out of your bins, ensuring the right weight every time.
